This Is What We Do - Part 2
November 15, 2020

- 1. Many Americans have an unhealthy view of money even though God wants something so different! Imagine a life where money was a tool and not a burden, and a life where you met and accomplished some big financial goals. What opportunities and possibilities exist when you control your money instead of your money controlling you?**
- 2. Read Psalm 24:1. Pastor Sean's first vital truth from God about money is that God owns it all. How difficult is it for you to see that everything belongs to God ... including your money? What changes when we acknowledge and yield to this vital truth that God owns it all?**
- 3. While God owns it all, we are His stewards responsible for managing it. Pastor Sean challenged us to manage God's blessings well by knowing what comes in, what goes out, setting priorities, goals, and creating a budget. What practical step(s) do you need to take to be the best steward you can be and how can you get started with that?**
- 4. Read Matthew 6:33. Another vital truth that Pastor Sean taught is that God promises to provide for all our needs when we put Him first. Where have you seen God provide for your needs recently? How can you put God first this next week and keep Him first as we look ahead to the end of the year?**
