

Who's In Charge?

In Charge – Part 2

August 22, 2021

Conversation Starter:

Last week's discussion ended with a question about taking practical steps to experience freedom from the burdens that come when we allow our tech to be our master. Share any steps that you took and what resulted from those actions.

Discussion Questions:

1. Pastor Sean talked about the ocean tide slowly causing you to drift farther from your original location on the beach. Have you personally experienced that happening? Has there ever been a time where your tech was gradually influencing you to do something, positive or negative, that you didn't realize at first?

2. Read Matthew 6:22-24. What things have you fixed your eyes on that have caused your life to be filled with light or filled with darkness?

3. Read Proverbs 4:25-27 and Proverbs 5:21. Discuss how these two verses relate. How are you encouraged knowing that God is keeping watch of the paths you choose to take?

4. Small habits over time can produce big results. What are some small habits that have had big results in your life? What's one small habit that will help you grow in your relationship with God beginning this week?

Thoughts to Ponder:

You get to decide where your eyes go. Ask God to show you an area where you are directing your eyes that isn't drawing you closer to Him.
